**VARICOCELE** IS THE GREAT ENEMY of men; it is the disease destroyer of their vitality, strength and their nervous system. About 40 per cent of all men suffer from it. Probably only 10 per cent know what it is. Indeed, so universal is the ignorance on the subject that men live a life-time, suffering from the effects of varicocele and never know what has caused the suffering. Varicocele is a dilation of the veins. The reason varicocele so often puzzles the patient is because the veins are hidden and hidden. In ordinary cases there are radiating pains down the back and thighs, neuralgia, easily tired when standing, pain in the back, nervous debility. There are many cases in which the patient is unable to perform his duty. **VARICOCELE** IS NEVER CURED BY A PAINLESS METHOD. THOUSANDS OF REFERENCES CAN BE GIVEN. THIS IS THE MOST COMPLETE, BEST AND MOST SUCCESSFUL METHOD. ALL WHO ARE IN DOUBT ABOUT THEIR CONDITION SHOULD CONSULT DOCTORS JOHNSTON & WALSH and get their opinion at once.

**CATARH** CURED IN FIVE to ten treatments. Scrophula, Syphilis, Early Consumption, Bronchitis, Asthma, Pleurisy, Cough, Chronic Throat Disease, Hoarseness, Heart Disease, Venereal Disease, Pains and Puffiness of the Heart, Liver, Kidney and Bladder Troubles, Diabetes, Bright's Disease, Frequent and Painful Urination, Sediment in Water, Rheumatism, Neuralgia, Dyspepsia, Catarrh of Stomach and Liver, Constipation, Indigestion, Eye and Ear Diseases, Nervous Debility, Sleeplessness, Tired Feeling in the Morning, Bad Dreams, Easily Frightened, Floating Spots before the Eyes, Headaches, Backache, Shooting Pains, Despondency, Melancholia, St. Vitus Dance, Epilepsy, Paralysis, Dumbness, Lack of Confidence and Ambition, Imaginary Fears, Threatened Insanity, Dizziness, Weakness, Lack of Endurance, Etc. If you are suffering from any of these, consult Drs. Johnston & Walsh at once. Delay is fatal.

### YOUNG BOY DROWNED

Chas. Dunkin's Strength Failed Him in Mid-Stream.

Charles Dunkin, the 16-year-old son of J. S. Dunkin of Sedgewick, was drowned in the Little river Friday a few moments after dinner. The accident happened on the Sixteenth farm, two miles below the city. Charles Dunkin and two other boys were in swimming, and the water was very high and the current swift. The place where the boy was drowned was more than twenty feet deep. Charles Dunkin swam across the river and started back, and when near the center of the stream his strength failed him and he tried to float to a clump of willows near the bank but went down before either of his companions could reach him. The current in the river had not been found last night. It may have caught on some trees, and will not be found until the river goes down, and the remains may never be found.

### THINK IT IS PRACTICABLE

Best Sugar Company May Try Israel Seeded String.

Mr. Frank Israel of the Israel Seeded String company has received a letter from Mr. Hamilton of the American Sugar Beet company in regard to his new idea for planting seeds. Mr. Hamilton stated that the company would make a thorough test of the matter and, if possible, would make some arrangement whereby the different varieties of the company would manufacture the strings and furnish them to the farmers at cost. There are at present 50,000 acres of beets planted in this country every year and the amount is constantly increasing and if the Israel seeded string is successful it will make a revolution in the industry, as it will be the means of a great saving in time and in cost of labor.

### MR. LEASE IS FORGIVING

Says Mrs. Lease Had to Have Something for Evidence.

Now that the public has been informed as to how Mrs. Lease obtained her divorce, the most natural question is how about Mr. Lease, and how does he take it? Charles Lease, as he is familiarly called in this city, keeps right along in his place of business and his many friends in this city greet him as warmly as ever. Mrs. Lease's evidence in the divorce case has not changed anybody's

opinion of Charles Lease. There may have been times when he did not supply his family with all the luxuries that Mrs. Lease thought became their standing in the world, for he has never been a rich man, though always industrious. "Mrs. Lease is all right," said Mr. Lease to a reporter for the Eagle yesterday, with a sorrow depicted in every line of his face. "She is wonderfully ambitious, and I presume she thinks she can make her own way in the world better without me. I never made any resistance to her getting a divorce, when I once made up my mind that she desired to have one. You know us when we lived together in this city, and you know that our home was a happy one. I have not one word to say against Mrs. Lease. She had to say something to get her divorce and my mind was made up to allow her to say whatever she thought best. She is all right, and it is certainly my most sincere wish that her future life may be a happy one."

Charles Lease evidently thinks the ambition of his wife was the cause of the separation. He always took great interest in her success and when she made a speech that caused favorable comment in her early career nobody else seemed to be half as well pleased as her husband. He seems now to feel that if he is in the way of her further success he will step aside and give her a clear road to fortune and fame.

It would not require an expert in divining the thoughts of men to tell that Charles Lease, down deep in his heart, carries a burden of sorrow. There is disappointment written in his face and one knows that the fond picture which had found place in his mind of the great future of his family has not been realized so far as he is concerned. Mrs. Lease left the scene of her home to win fame and fortune in the world. The effects of this on her home is now a matter of history. The remainder is concealed in the unknown future.

### THE HOUSE BEAUTIFUL

One of the things which particularly strikes one in the last twenty-five years is the enormous stride which has been made in the beautifying of the interior of houses. Nowadays taste has so much improved that an ugly house is an exception, not the rule; although I remember having seen quite recently Japanese fans and supplied with a picture in a noble old oak-paneled picture gallery, where they looked as though they were a few yards from pink hills would appear if used as a drapery in Westminster abbey—Ladies Field.

## BAILEY IS A FAVORITE

It Is Thought He Will be Nominated for Governor.

### COMBINE MAY BEAT HIM

But That Result Is Not Looked For.

The Republican state convention will meet in the auditorium in this city at 10 o'clock next Wednesday morning to nominate a full state ticket including a congressman at large.

Admission to the auditorium will be by ticket and there will be seating capacity for about 2,000 persons. There will be twelve doorkeepers, fifteen messengers and ushers, one sergeant-at-arms and twenty-four assistants. The tickets will be distributed through the state committee and not through the local committee. Morton Albright will have absolute supervision over their distribution.

The local committee has arranged for two full bands, Sandford's and the Oage City band, a fine glee club, badges and everything necessary for the complete equipment of convention service and for bouquets of flowers for the delegates.

There will be a big crowd here. Mr. Orle Morse expects 5,000 persons. There is a large number of candidates and as a nomination means an election they are making strenuous efforts to succeed. Accordingly, practically every candidate is bringing with him a delegation of whoop-ers.

The method of accommodating the visitors is very complete, a perfect system of finding sleeping accommodations for them being devised by the local committee of the Chamber of Commerce.

It will be the most exciting convention in the history of the state. The future politics of the party will enter largely into its deliberations. It will involve the senatorial question for 1903 as well as for 1907; for plans have been laid by one element to make a demonstration against taking the souls of Senator Burton before this convention is over. The friends of Burton will try all efforts to strengthen him before the Republicans of the state and the contest between the factions will be a very interesting one. This feature of state politics is rather exciting at the present time and divides interest with the selection of candidates.

Cyrus Leiland, Jr., will be a towering figure in the convention, for he will undoubtedly head the majority forces. He has his candidates slated and he will try to land every one of them. Upon his success depends his future position in Republican politics. He is proceeding boldly though cautiously, for he knows he cannot make many false moves. He and his friends have too much at stake to make any mistakes. If he carries out his program successfully he will land in the lucrative offices of the state men who can send a delegation to the national convention in 1904 and who will vote for or against Theodore Roosevelt, according to the wishes of Mr. Leiland, and in spite of Senator Burton, whom the president has favored against Mr. Leiland. If Mr. Leiland can show the president of the United States that the Republicans of Kansas are standing by him and back of him, and sustaining him in his position to nominate his men for the offices, it will be a great feather in his cap.

If the opposition to Mr. Leiland can form a close combination they can beat him, but it is doubtful whether they can combine closely enough to make an effective fight. The elements in the opposition are not favorable for a close combination against Bailey. Troutman is the strongest candidate in opposition to Bailey, and it will be difficult to combine on him; and unless the opposition can combine on their strongest candidate they cannot combine at all.

It can almost certainly be said: That W. A. Bailey of Baileyville will be the nominee for governor.

That Leiland will accomplish a pronounced victory.

That the state administration will be endorsed.

That the national administration will be endorsed in its attitude of hostility toward the combinations which seek to monopolize or restrain trade.

That the administration in the Philippine policy will be endorsed and a declaration made in favor of the Isthmian canal.
